@Aditya Kumar Choudhary

SKILLS

- **Java**
- **HTML, CSS, Javascript, bootstrap**
- **Python**

EDUCATION

- CSE | GIET Khurda Odisha *CGPA*: *8.29*
- XII (BSEB) | **+2 Kamla High school pokhram**
  81.4%| 2024

ACADEMIC PROJECT

1.Snake -water-Drap (Python)

Project details:

- *Built a console-based game where users play against the computer with score tracking.*
- *Applied Python's random module and conditional logic to implement gameplay rules and determine winners.*
- *Strengthened skills in Python functions, loops, and input handling through real-time game development.*

2.Tic-Tac-Toe Game | HTML, CSS, JavaScript

Project details:

- *Built an interactive web-based Tic-Tac-Toe game with real-time winner detection and score tracking.*
- *Applied JavaScript logic and DOM manipulation to manage turns, validate moves, and highlight winning combinations.*
- *Enhanced frontend development and problem-solving skills through interactive game development.*

IRCTC Website Clone | HTML, CSS

Project details:

- *Built a responsive static clone of the IRCTC website featuring ticket booking form, promotional banners, and tourism section.*

- *Designed clean layouts using Flexbox/Grid and improved user experience with styled forms, buttons, and hover effects.*

- *Strengthened frontend design and semantic coding skills through real-world website replication.*
